

Your new communal recycling and refuse service

Information about where the bins are and how to use them

Further to the consultation and your feedback, the final locations for the new bins for refuse and recycling in Adelaide Crescent and Palmeira Square have now been chosen. The map included shows where the bins will go.

We have moved bins away from residential properties as much as we can and are pleased to confirm that there is now no loss of parking.

We have also removed glass recycling bins from immediately within Adelaide Crescent and Palmeira Square in response to concerns regarding noise. Glass bins are located at the bottom of Adelaide Crescent and at the existing recycling point shown on the map.

How will the bins be fixed?

The refuse bins will be on castors - the same as the large black bin already in the top east corner of Palmeira Square. The recycling bins are also black and these will be fixed with metal locking posts like the ones currently in use on Western Road.

Non-recyclable (general waste) communal bin

Mixed recycling and glass only communal bins

When will the bins be installed?

The bins will be installed in the week beginning 12 March 2018. The last doorstep collections will be made during this week also. You can begin using the new bins as soon as they arrive.

What if I am unable to use the bins?

If you require an assisted collection, please call our contact centre on 01273 292929 or email cityclean@brighton-hove.gov.uk. We can arrange collection for you where there is no-one else living in the household who can help you with this.

Signage and enforcement

The bins will be labelled with clear signage to show which are for general rubbish, mixed recycling and glass recycling, as shown in the pictures opposite. The signage also includes clear messaging around bulky waste, fly-tipping and trade waste.

Enforcement Officers will regularly patrol the area to make sure that the bins do not attract fly-tipping and our streets team will ensure that any bulky waste left is removed quickly.

Key

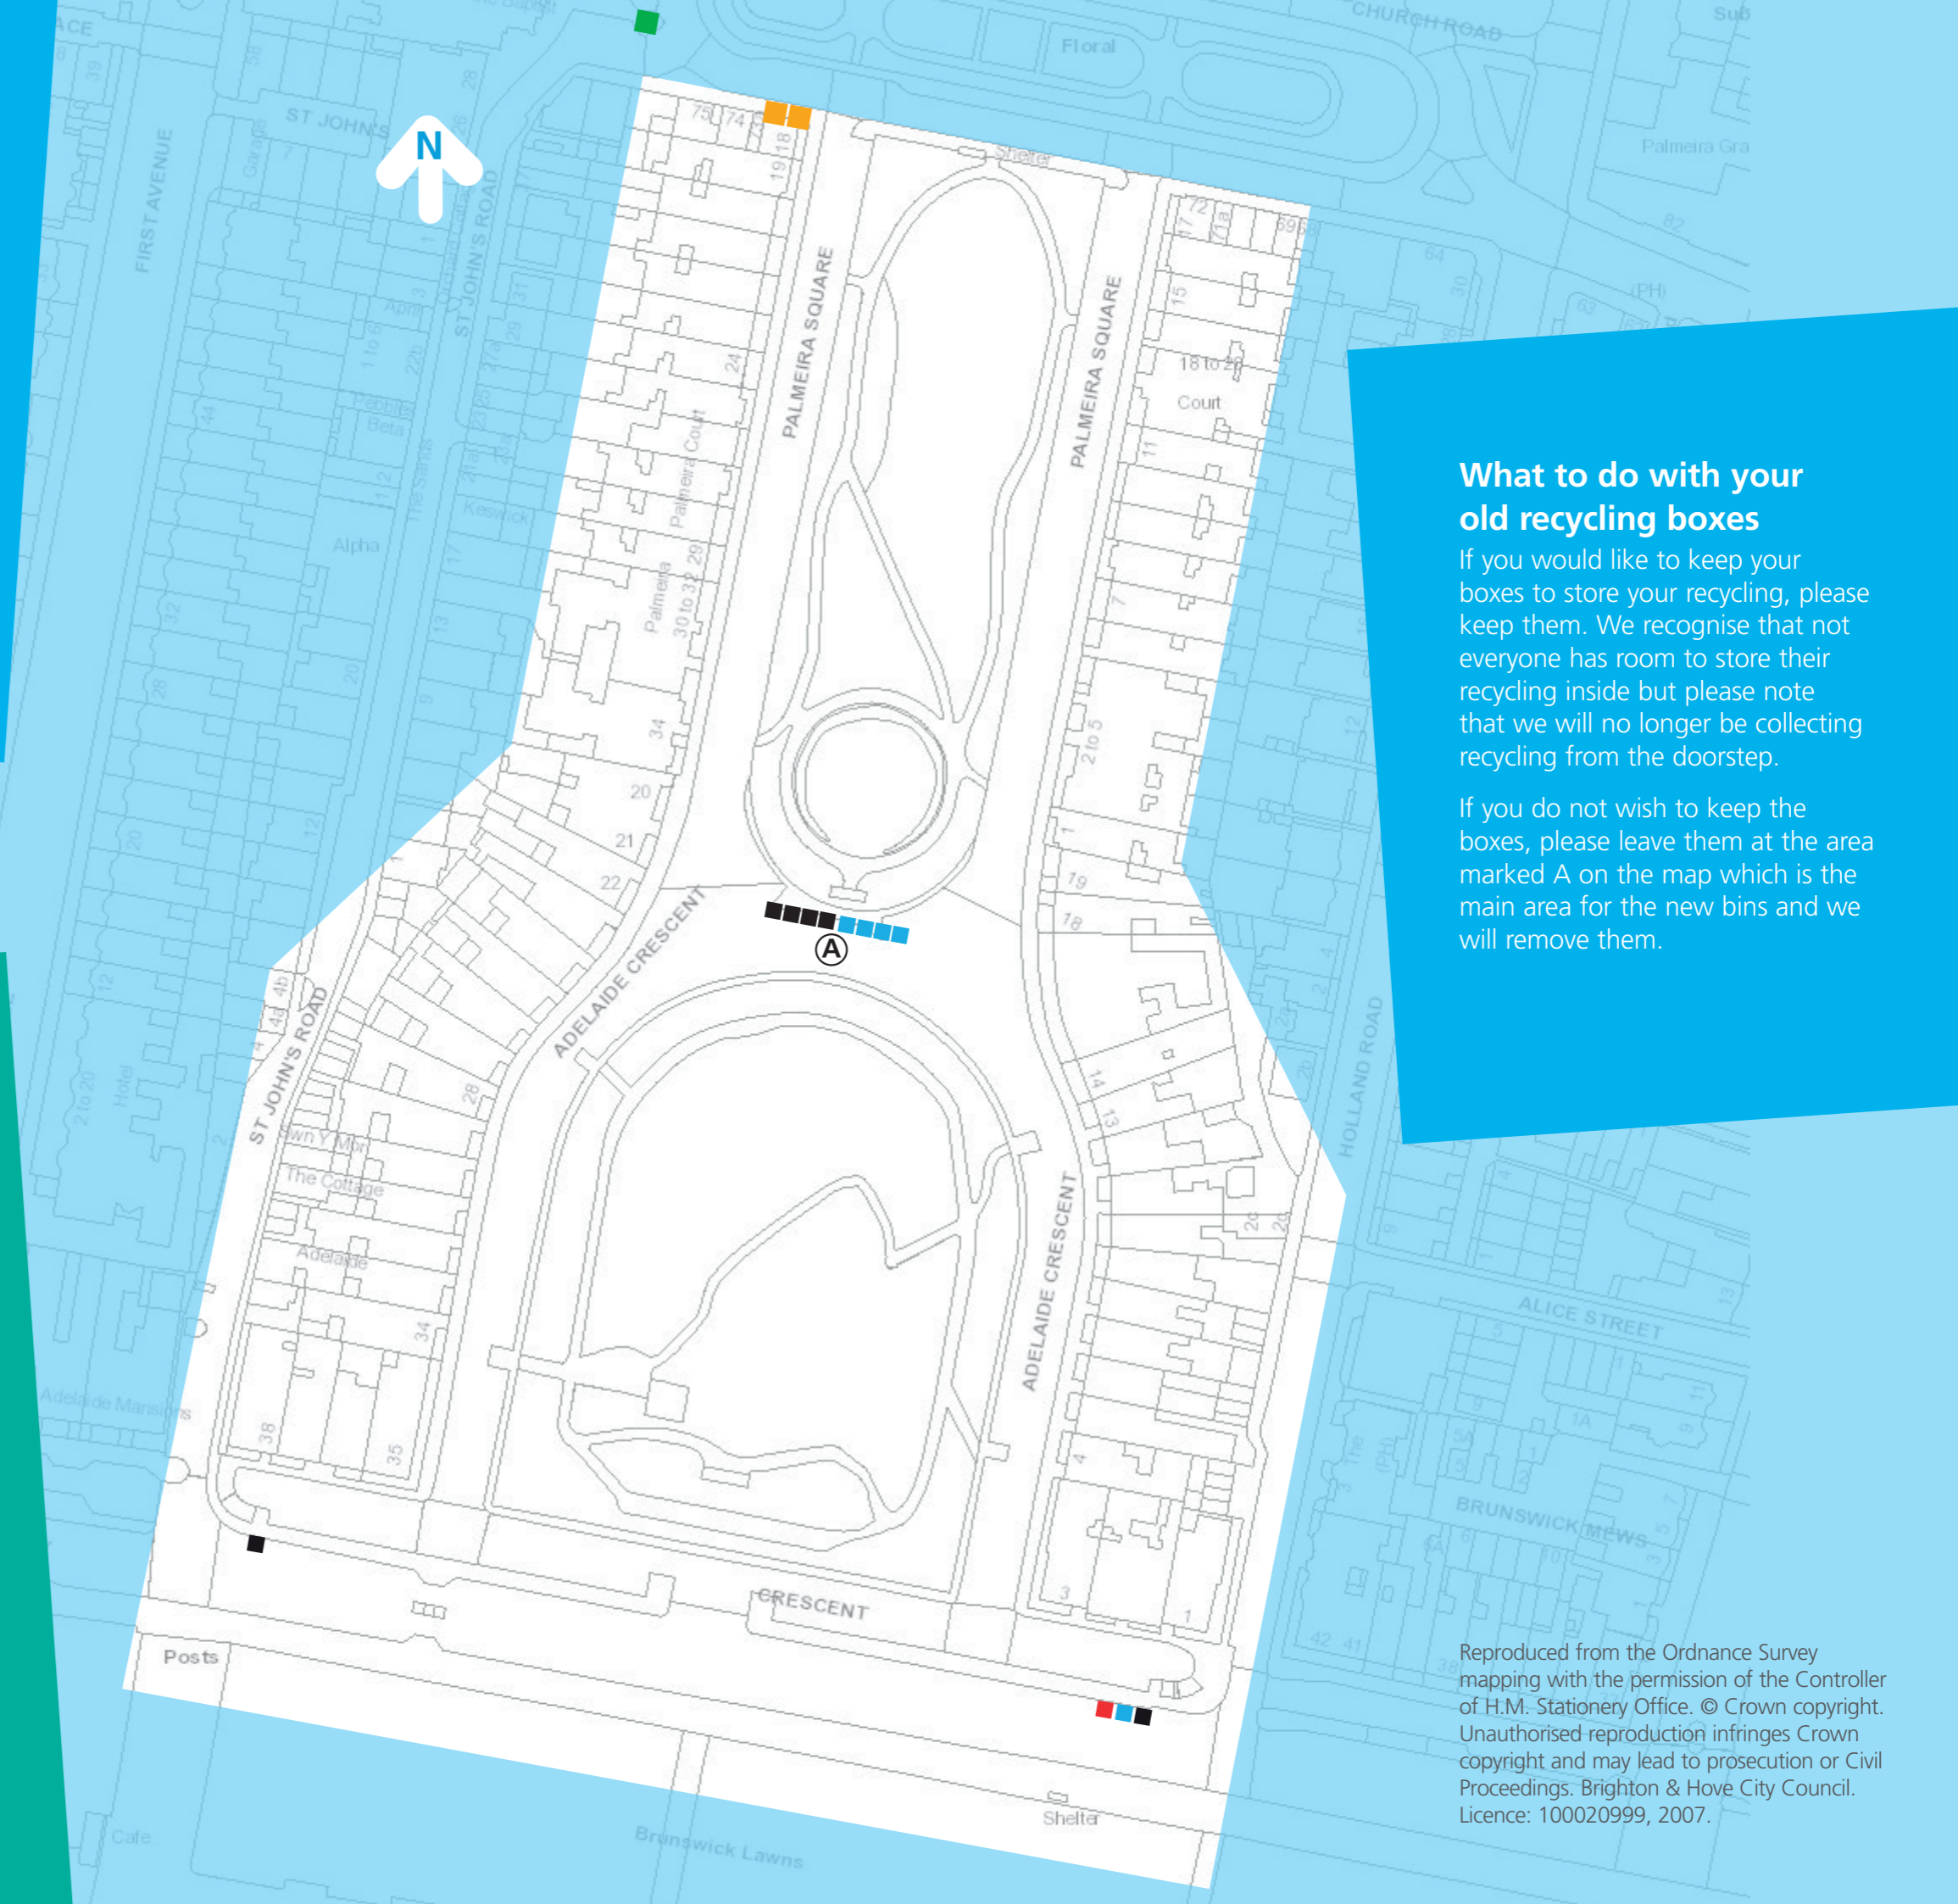

- New communal refuse bin
- New mixed recycling bin
- New glass recycling bin
- Existing communal refuse bin
- Existing recycling point
- Ⓐ Please leave your old recycling boxes here for collection.

Please note: This map is for illustration purposes only and the communal bins are not drawn to scale.

What can you recycle?

Please recycle all the below items

-  **Cans**
washed and empty
-  **Aerosols**
empty with lids removed
-  **Cardboard**
flattened to fit in the bin
-  **Paper**
including directories and windowed envelopes
-  **Plastic bottles**
washed and squashed with lids removed
-  **Glass**
in the separate glass bins provided

What to do with your old recycling boxes

If you would like to keep your boxes to store your recycling, please keep them. We recognise that not everyone has room to store their recycling inside but please note that we will no longer be collecting recycling from the doorstep.

If you do not wish to keep the boxes, please leave them at the area marked A on the map which is the main area for the new bins and we will remove them.

Bulky waste

There are several organisations in the city that may take your bulky items for free, especially if they are reusable. You can find a list of these on our website at www.brighton-hove.gov.uk/bulkywaste.

Collections

The rubbish bins will be emptied a minimum of five times a week and the recycling bins will be emptied at least three times per week. The bins will be monitored closely and emptying can be adjusted quickly according to their usage.

Benefits

Communal bins can be used daily so are easy and convenient

Rubbish is securely contained, resulting in cleaner streets

More opportunity to recycle

No more seagulls ripping black sacks leaving refuse to spill onto the pavements
